

MORRIS[®]
PAINTING TOOLS & SPRAYS

**PRODUCT
CATALOGUE**

2022

A Unique Proposal of High Quality Products

MORRIS' core features:

- ✓ Wide range of products
- ✓ Top quality
- ✓ Modern packaging design
- ✓ Excellent value in relation to their quality

**MORRIS SERIES
INCLUDES A WIDE RANGE
OF PAINTING TOOLS,
SPRAYS, ABRASIVES AND
SEALANTS THAT COVERS ALL
NEEDS OF PROFESSIONAL
OR DIY USE.**

Range of Products

Brushes & Rollers

Brushes and rollers not only for Professionals! The carefully selected variety of filaments and handles makes our product range suitable for all kinds of painting jobs

Decorative Sprays

A range of color sprays, from lacquers to embellish and repair all kinds of objects to several metallic, chrome and fluorescent lacquers

Technical Sprays

A wide range of technical sprays that works as problem solvers such as maintenance products, cleaners, lubricants, etc.

Abrasives

Abrasive rolls and pads made from the best materials to provide solution for every professional use

Accessories

A series of products that complements painting tools

Tapes

High standards tapes for several applications such as painting jobs, bundling, packaging, insulation and marking

Sealants & Fillers

Professional sanitary silicones, acrylic sealants and polyester fillers, suitable for industrial, constructional, automotive and marine applications as well as DIY use

Superior paint brushes range

The top quality raw materials that we use and the continuous quality controls in production process, reassure high standards and reliability in our complete product range.

BRISTLE: We use high quality hair selected among the best suppliers around the world. Depending on the application purpose, we use natural hair, synthetic hair or their combination.

HANDLE: Ergonomic design provides comfort and ease of use. Unvarnished wooden handles for extended service life or plastic handles that are not affected by solvents.

FERRULE: Depending on the paint brush type, we offer ferrules made of galvanized steel, nickel plated, bronzed or inox.

GLUE: We use epoxy glue in all paint brushes in order to secure stable and long lasting connection of hair-spacer-ferrule.

Solutions for every need

- ✓ Superior paint brush series
- ✓ Addressing the most
- ✓ Demanding professionals
- ✓ Top quality and service life
- ✓ 5 Stars

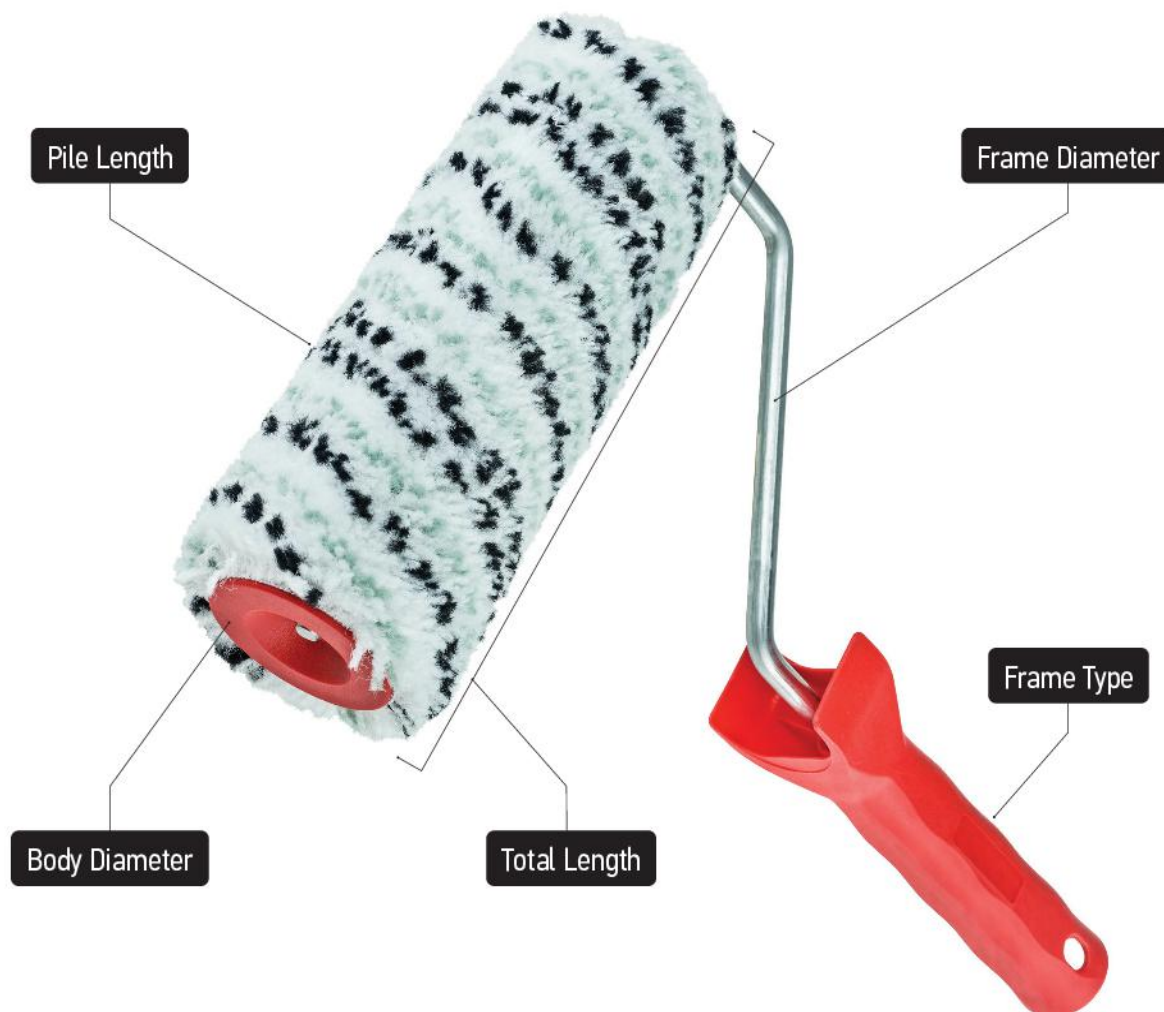

- ✓ Professional use
- ✓ Very good quality and service life
- ✓ 4 stars

- ✓ Economy series
- ✓ Simple use and special applications
- ✓ 3 stars

High standard paint rollers

There are 5 important aspects to check when selecting the appropriate roller:

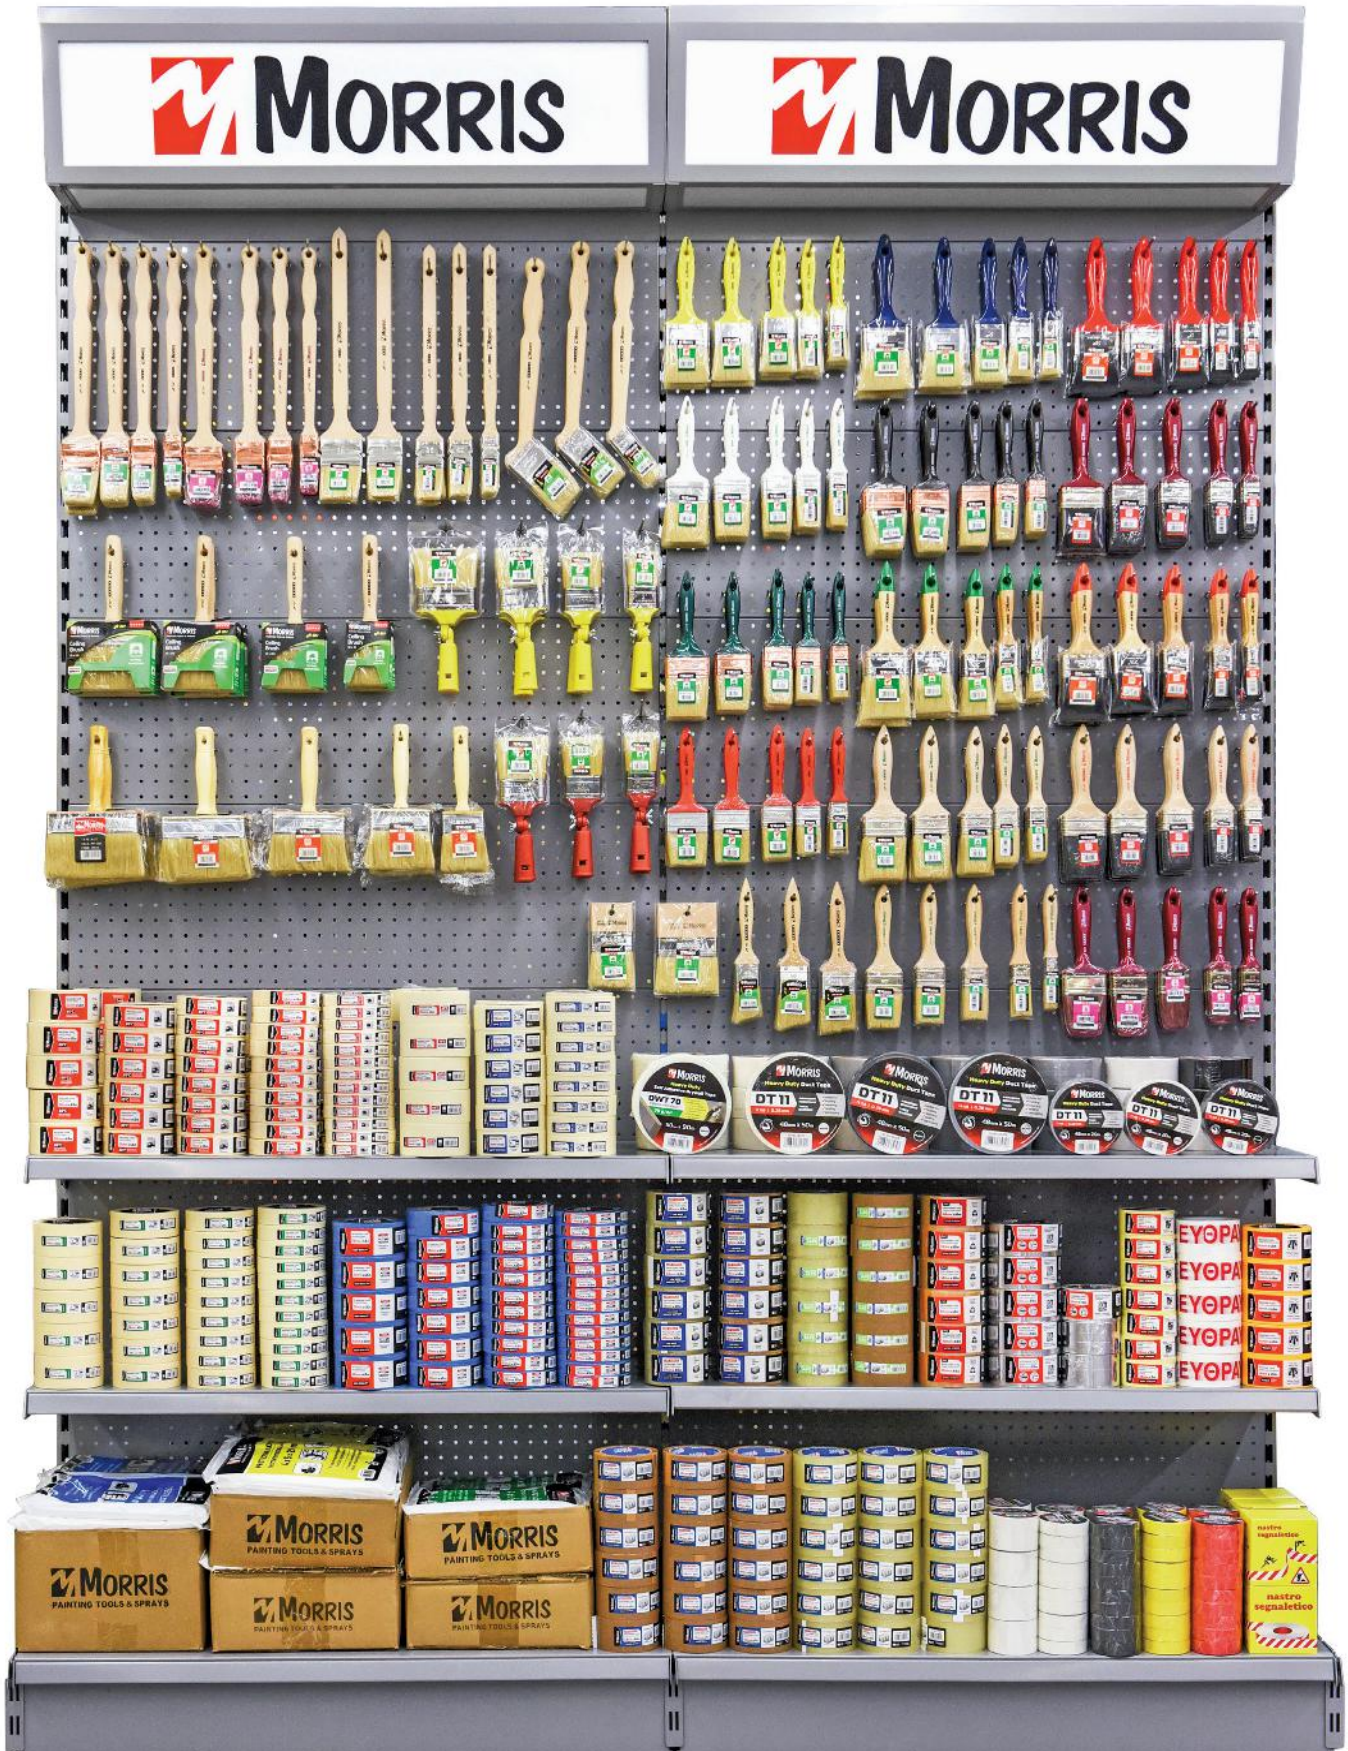

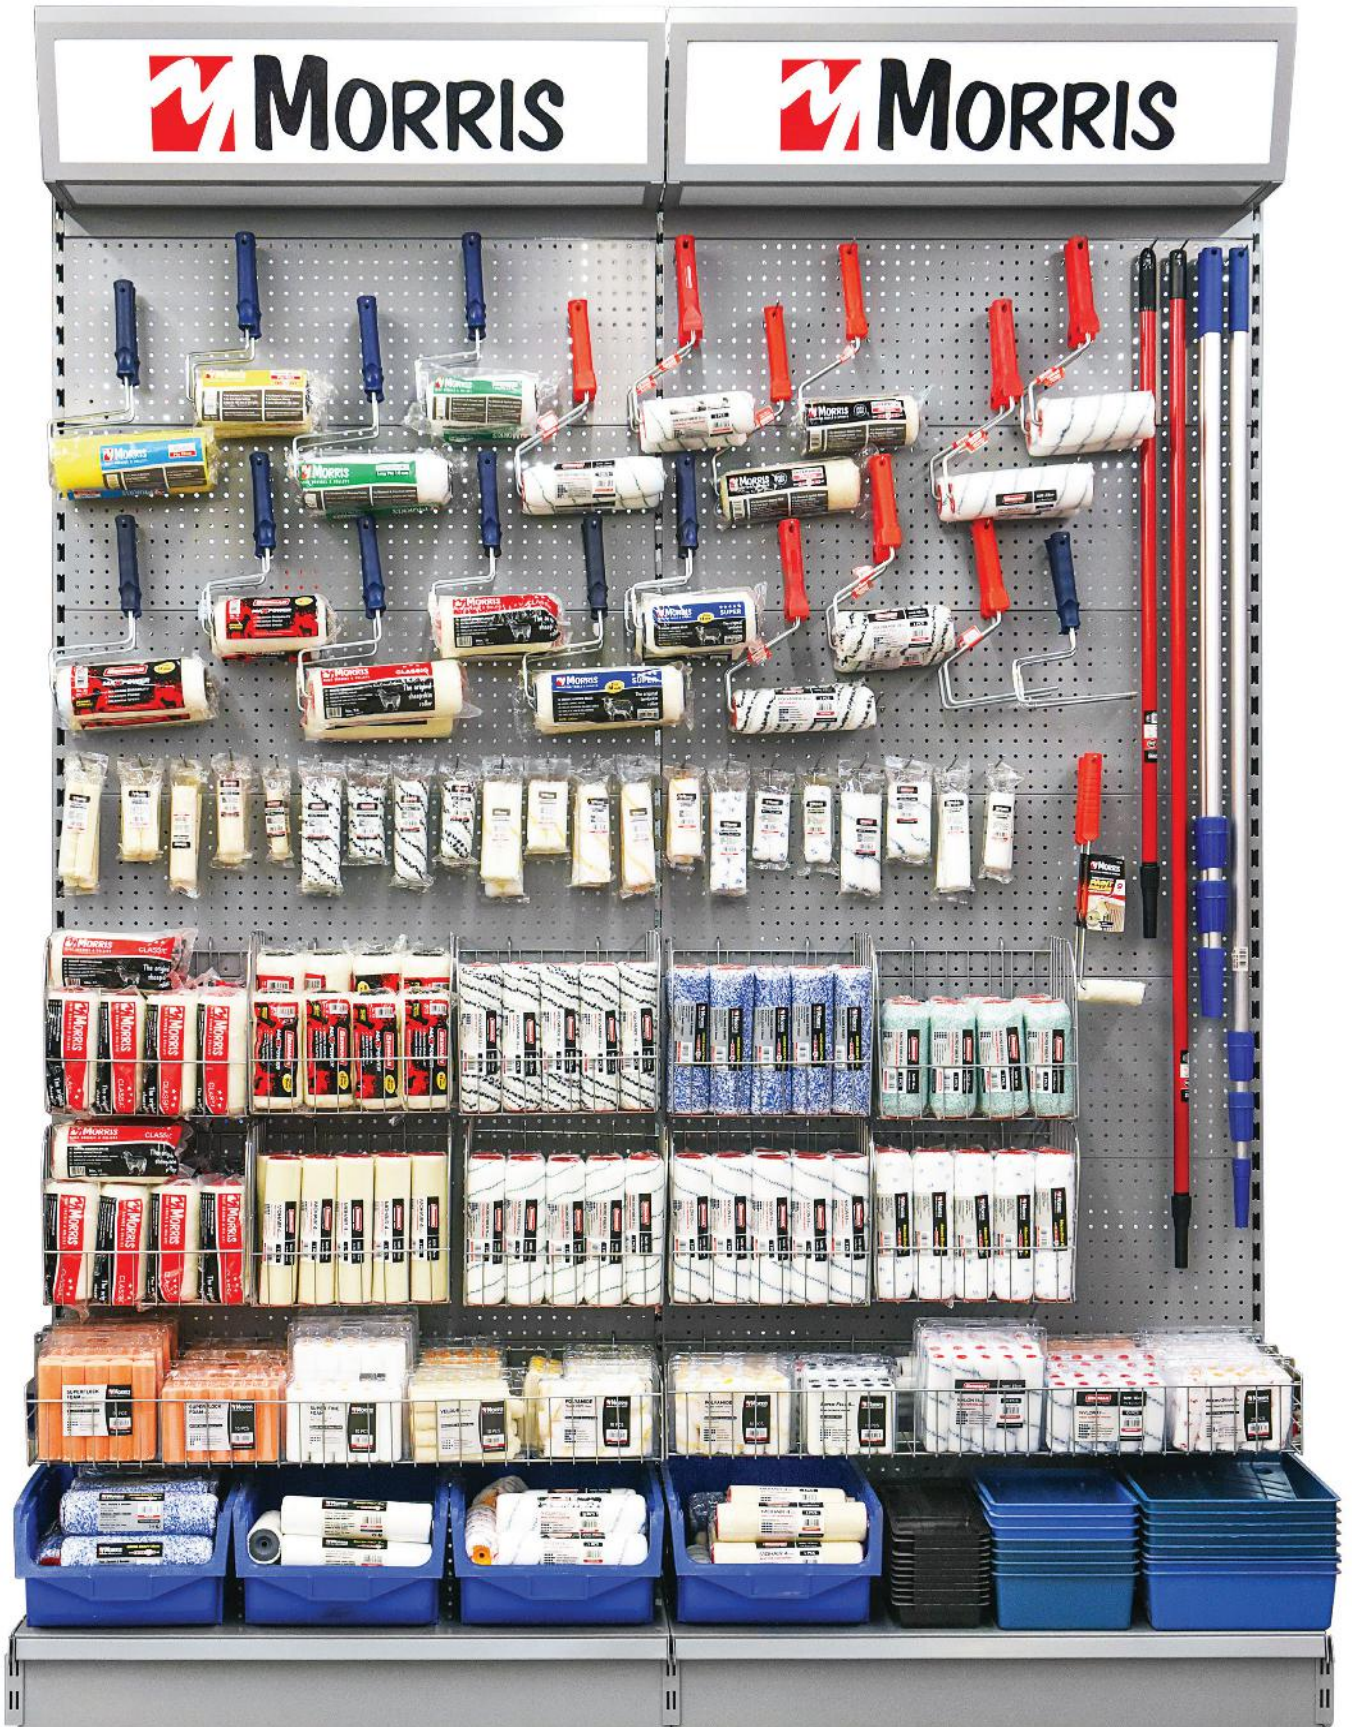

Selection of the appropriate roller

Selecting the suitable roller for different needs, leads to optimum results. Use the table below in order to facilitate the roller selection.

Application materials

PLASTIC	★★★★★	In this example, the roller is ideal for plastic and acrylic paints, suitable for water based and can be used for primers.
ACRYLIC	★★★★★	
WATER-BASED	★★★☆☆	
PRIMERS	★★☆☆☆
